INTRODUCTION

Galaxy Mechanical & Electrical JSC (GME) was founded in 2011, from the begin period, we already recruited and trained M&E engineers, technicians, workers to obtain the high quality staffs. We provide services to a wide and diversified range of customer base and serve customers from factories, commercial and residential building, hospitals, power plants...

After years of operation, **GME** has collected much experience as well as close relationship with famous suppliers. With investment in modern equipment and training cadre and staff during times, this has helped **GME** in having engineers and workers who such skillful, rich experience and ready to undertake all works with the highest quality, progress.

We always pride ourselves on designing, erecting many factories, buildings with high quality, under progress as: Nitori EPE Viet Nam Factory, ABE ISM Factory, Hapulico Complex, VSIP Hai Phong, Vsip Bac Ninh, AES-VCM Mong Duong...

We always consider and desire that serving customer is our happiness to provide a significantly contribution into the valuable customer's success.

Our slogan is: " **CREATING VALUES** ", which shows Company's commitment to be development, customer's fellow-traveller and contribute to the prosperity of society.

As the world is constantly changing. Here at **GME** we embrace these changes as the challenges and inspiration for making a greater step. We are proud of participating in the country's development and modernization, playing an important role in mechanical, electrical and construction areas.. Together with us, let bring the ideas into actions for a better future.

BUSINESS FIELDS

MAIN BUSINESS

ELECTRICAL SERVICES: POWER AND ELECTRICAL, FIRE ALARM, COMMUNICATION AND SECURITY

Galaxy Mechanical and Electrical JSC (GME) is capable in variety of areas from planning and designing to installation, testing and commissioning and maintenance of facilities involved in Power & Electrical distribution, Lighting, Earthing and Lightning Protection system for construction works.

For the control and supervision of HVAC and other building or plant services, we offer flexibility, scalability, simplicity and open - building management and control system designs, contribute significantly to reducing energy usage.

MECHANICAL SERVICES: HVAC, FF, P&S SYSTEMS

GME offers mechanical facilities to make contributions to improvement and development of the customer's infrastructure and high-tech industries.

We have been deeply involved in the construction of buildings, production facilities and factories locally for its customers that have expanded into many industrial zones and technology parks.

MAINTENANCE AND SERVICES

GME now day by day is trying to support the clients by providing full maintenance, after warranty services in order using the equipment in the best and efficient way with longest property life span.

ENGINEERING SERVICES

GME provide engineering consultancy to lowest cost and highly efficient contracts.
